

# TRAINING PROGRAM

## Introduction to the SAP FI module on S/4 HANA and the Consultant's Job

### Description:

This course provides a comprehensive introduction to the SAP FI module on S/4 HANA, focusing on the skills required to become an SAP FI consultant. Participants will discover the key functionalities of SAP S/4 HANA FI, including organisational structures, as well as the main business flows.

### Training objectives:

- Acquire knowledge of SAP and project management in SAP
- Understand the organisational structures associated with the SAP FI module
- Identify the business needs covered by the FI module and the responsibilities of FI end users
- Understand the main business flows of the FI module and their integration

### Profile:

- Engineers and academics
- Individuals who wish to change careers
- SAP users

### Requirements:

- Basic computer skills
- Basic knowledge of accounting and finance

### Assessment and monitoring:

- Assessment prior to the start of the course to evaluate participants' level of knowledge.
- Assessment of knowledge acquired throughout the course to check understanding of the concepts in real time, using multiple-choice questions and practical exercises.
- Assessment after the course to measure the knowledge acquired and compare the results with those of the pre-assessment.
- Evaluation of participants' satisfaction is carried out systematically at the end of the training course and a follow-up evaluation is carried out 3 months after the end of the course.
- Training certificate issued to participants
