

Mastery of configuration of the SAP MM Module on S/4 HANA: Practical Workshop

Description:

This course offers an intensive immersion in the configuration of the SAP MM module on S/4 HANA, through practical workshops. It aims to provide the skills needed to effectively configure the key elements of the MM module, in order to optimise and customise the purchasing and materials management processes in the company.

Training objectives:

- Set up purchasing-related organisational structures
- Set up master data for suppliers and articles
- Set up purchasing documents, such as purchase requisitions and purchase orders
- Set up price conditions and calculation schemas for purchases

Profile:

- SAP Users
- SAP junior consultants

Requirements:

- Good knowledge of purchasing functional flows
- Have basic practical skills on the SAP system

Assessment and monitoring:

- Assessment prior to the start of the course to evaluate participants' level of knowledge.
- Assessment of knowledge acquired throughout the course to check understanding of the concepts in real time, using multiple-choice questions and practical exercises.
- Assessment after the course to measure the knowledge acquired and compare the results with those of the pre-assessment.
- Evaluation of participants' satisfaction is carried out systematically at the end of the training course and a follow-up evaluation is carried out 3 months after the end of the course.
- Training certificate issued to participants

Reference: MM-004

Language:
French

Level :
Expert

Duration: 3 days
(21 hours)
